# RAMS™

## ROTATING APPARATUS MONITORING SYSTEM

- **Affordable solution for 24/7 monitoring of equipment health**
- **Condition alerts sent via text or email when equipment health declines**
- **Easy to use dashboard accessible from the web (desktop or mobile devices)**
- **Three plane vibration monitoring/trending of acceleration and velocity**
- **Early temperature detection (cooling air flow, failing contactor, ground short)**
- **Machine learning sets vibration alerts at multiple output levels**
- **Tracks equipment run time**
- **Cloud storage of data for historical comparison**
- **Bluvision next generation higher resolution sensors and gateways**
